"Awesome! From the moment I put the needle on track 1 knew it was going to give me a treat. This Dual EP is a real gem. The sound and the feel they're so 1950's they'll blow your mind."

Slap that Bass · United Kingdom 11.12.2018

"This is a wonderful recognition. for one of the best exponents of rockabilly guitar in Spain. A guy who started his journey with the instrument completely self-taught, starting from classic rock'n'roll, and that over the years has been enriched by influences, of travel, and of obsessive study until developing a own and universal language."

Mondo Sonoro · Spain 31.01.2018

"With this EP, Al Dual presents himself in full right, as a true rock'n'roll artist. Four brilliant own songs inspired by the classics of the genre, his original guitar and his voice loaded with retro sounds are the center of attention".

"The incredible story of Al Dual: a guy from Murcia Best Rockabilly Musician Award winner of all the world. Four chords are enough to know it, it's pure rock and roll: the one they can only touch the real 'rockabillys'. Dual is one of them. His hair, his voice, everything about him smells like Memphis, the cradle of rock and roll."

From Left to Right : " All Star Team " with Peter Sandberg (The Go Getters). Al Dual, Levi Dexter, Jerry Phillips, James Intveld, Reverend Horton Heat and Big Sandy.

After two years of intensive production, recording and post-production work, Al Dual has just finished the mixes for their first full-length album "Reel to Reel". At the end of 2018 Dual and the band decided to travel to Berlin (Germany) to record at Lightning Recorders studios, commanded by Cherry Casino. The first live overdubs of the initial repertoire of 10 songs were recorded there, to continue with additional recordings and other overdubs in Madrid at Mr. Panther Records Studio, in Valencia at Moma Music Studio and finally at Medusa Studios in Barcelona. For this album, Al has surrounded himself with great professionals and friends: the mixes has been done by engineer Santi Quizpe, choir recordings by The Velvet Candels, accordions by Jorge Torres "El Gallo de México", and pedal steel guitar by Pach Lanzas. The album has been produced, directed and arranged by Al Dual, in which, we find an original repertoire of 10 songs composed by the artist where he shows his most eclectic side, contemplating the spectrum of styles that marked the decade of the 50's.
